

What You Need to Know About 3D Cloud Kitchen Designer for Pro Users

**Built for
kitchen designers**

**Design workflow
in 30 minutes**

**Real time photorealistic
3D renders**

**Multi format
contractor exports**

**Cloud-based,
accessible anywhere**

What makes 3D Cloud Kitchen Designer for Pro Users Unique?

The 3D Cloud Kitchen Designer transforms the traditional kitchen design process by combining intelligent consultation workflows with enterprise-grade 3D visualization. The system integrates real appliance catalogs, material libraries, and pricing data to create accurate, buildable designs that clients can visualize and approve in real-time.

Fast Facts

- Purpose-built for kitchen design professionals
- Consultation-to-design workflow in under 30 minutes
- Real-time 3D rendering with photorealistic materials
- Multi-format exports for contractors and installers
- Material list and pricing outputs for quoting
- Cloud-based platform accessible anywhere, anytime

15-20min Avg. consult time

5-10min Avg. session duration

50K+ Kitchen designs created

95% Client approval rate (first presentation)

3x Faster design process speed

40% Reduction in design revision cycles

Is it secure?

All 3D Cloud applications are hosted in a secure cloud environment with layered architecture, redundancy, and 24/7 monitoring. Penetration and vulnerability testing are conducted regularly. 3D Cloud is SOC 2 Type I & II and ISO 27001/2013 compliant. Client design data is encrypted and backed up automatically.

Will it work with our other systems?

- CRM integration for client management and follow-up
- Pricing APIs for real-time appliance and material costs
- CAD export compatibility for contractor handoff
- Marketing automation for proposal generation
- Project management tools for design workflow tracking
- Cloud storage for design library and client access

How is 3D Cloud Kitchen Designer different?

- ✓ **Instant 3D visualization:** See designs come to life in real-time
- ✓ **Designer workflow optimized:** Built by designers, for designers
- ✓ **Marketing materials included:** Professional presentations and tear sheets
- ✓ **Time-saving automation:** Generate floor plans, elevations, and BOMs automatically

Exclusive Features

Assisted Design	Automatically generate workspaces and designs.
Design from Photo	Design and styling applied to your project based on curated photos.
Analytics Dashboards	Track sessions, users, projects, conversion rates and other KPIs.
Furniture and Decor	Thousands of non-buyable 3D models to personalize your scene – furniture, décor, plants, and more.
Inspiration Rooms	Browse inspiration rooms that auto-generate complete designs for a quick starting point.
Room Scan Feature (iOS)	Scan a room to auto-generate a floor plan and upload it to the planner instantly.

Standard Planner Features

ADA-compliant Controls	Accessible drag handles and interaction patterns for assistive technology users.
Full Keyboard Navigation	Place, move, rotate, and select products entirely with keyboard – no mouse required.
Get Help Button	Customizable help button on startup, journey, and main menu screens.
Cabinet Styling	Swap all cabinet colors or choose different colors for upper and lower cabinets. Quick-style with keyboard commands.
Custom Countertops	Edit countertop dimensions, edge profiles, drain grooves, grain direction, and upstand placement.
Custom Image Upload	Upload any photo to create custom wall textures, floor coverings, or murals.
Data Driven Product Attachment	Data-defined rules for how products can attach to each other to create modular designs, e.g., custom sectional sofas.
Drag and Drop Placement	Place products with drag-and-drop or shortcut keys. Smart snapping and alignment ensure perfect alignment.
Molding and Trim	Add crown, plinth, toe-kick, and baseboard molding with selectable profiles and finishes.
Plan Mirroring	Flip your entire design layout vertically or horizontally in one click.
Product Customization	Style individual or all products with data-driven options like colors, materials, finishes, and hardware.
Room Styling	Customize wall colors, flooring, wall tiles, and molding.
Tiling and Backsplash	Apply different tiles, patterns, and grout styles to any surface.
Add-to-Cart	Support for add-to-cart integrations with eComm websites or point-of-sale systems.
CMS/DAM/PIM Integration	Integrate with your content management, digital asset, and product management systems.
CRM Integration	Connect to your CRM system to capture leads and manage customer relationships.
Custom Branding	White-label the platform to seamlessly match your website and brand identity.
Pricing and Inventory	Live and scheduled pricing and inventory data integrations to keep catalogs current.
SSO and Authorization	Support for single sign-on user login and permissions for enterprise security.
Annotations	Add notes for customers or installers.
Clash and Fix Alerts	Alerts for conflicts or fixes based on rules like preventing product overlap.

Grouping	Group products and create favorite sets.
Move Products by Distance	Move products by exact distances for precise placement.
Multi-select	Select multiple products for bulk editing.
Product Dimensions	View product dimensions.
Product Measurements	Create and view product-to-product measurements.
Room Dimensions & Measurements	Create and view room or space measurements.
Bill of Materials	Auto-generated BOM with drawings and cut lists.
Design Packet Export	Export full project packages with elevations, lists, and renders.
HD Rendered Screenshots	Generate high-quality images of your project.
Panographic Render	View your room in a panoramic render for browser or VR.
PDF Export	Export BOM and design images as a polished PDF.
Real-time pricing	View live project cost estimates during design.
Screenshot Download	Save the current camera view as an image.
Screenshot Editor	Edit rendered screenshots with post-processing controls.
Screenshot Gallery	Organize all renders and screenshots in one place.
Cabinet Catalog Swapping	Swap cabinet catalogs without losing your design.
Cabinet Catalogs	Support for generic, in-stock, semi-custom, and custom catalogs.
Search & Browse	Search and browse product catalogs across multiple categories.
Mobile Web View	Allow customers to view and collaborate on projects via mobile.
Project Sharing	Save, share, and collaborate on projects.
Projects Management	Search, filter, and manage projects with version history.
Read-Only Sharing	Share designs in a locked, read-only format.
Custom Ceilings	Support vaulted, angled, cathedral, and custom ceilings.
Floor Plan Drawing	Draw floor plans or use predefined shapes.
Floor Plan Trace	Trace floor plans and add architectural elements.
Room Templates	Start designs with pre-built room templates.
Smart Wall Drawing	Auto-snapping walls with real-time measurements and enclosure tools.
2D Camera	Design in a top-down 2D view.
3D Camera	Design in a 3D environment.

Elevation Views	View overhead and elevation drawings with dimensions.
Lighting Controls	Adjust lighting, sun position, and time of day.
Quick-View Hotkeys	Switch between views quickly using keyboard shortcuts.
Render Style Options	Toggle real-time styles like wireframe or color fill.

Coming Soon

- Customer-designer collaboration on projects and BOMs
- Capture kitchen photos to auto-generate dimensions and details for planning
