What You Need to Know About
# 3D Cloud Modular Configurators

Visual configure, price, and quote	Interactive 3D assembly	Easy drag-and-drop UX	SIF file integration	Real-time pricing updates

What makes 3D Cloud Modular Configurators unique?

3D Cloud Modular Configurators allow customers to create custom modular furniture layouts in a step-by-step visual interface. It's optimized for both online and in-store use, supporting deep SKU logic, pricing automation, and full visualization. Real-time changes and easy add-to-cart or quoting workflows make it an ideal fit for modular furniture programs.
