What makes 3D Cloud Product Configurators unique?

3D Cloud Product Configurators for contract furniture offer a user-friendly, realistic, data-driven, and customizable solution for 3D or rendered product configuration. No custom code is required—setup, updates, and pricing are managed through the 3D Cloud Platform.

We enable visual specification of complex, configurable office product catalogs at scale, powering experiences across e-commerce sites and physical retail environments—and giving customers the clarity and confidence to purchase.

Fast Facts

- No custom code, data driven
- UI builder to make building and updates easy
- Quality visuals, either 3D WebGL or rendered spins
- Support high complexity SKUs, steps and options, pricing, and dependencies
- Integrates with existing systems for add-to-cart, PIM data, CRM, or analytics
- Options include 3D rendered spins, 3D model spins, and SIF file integration
